Laboratory	IGI · Laboratory Grown Diamond Report		
Date	2026-08-21		
Inscription laser inscription	IGI LG825656634		
Origin	Lab-grown · CVD		

Assessment

- ✓ Meets the Pan Diamant Top Select criteria – proportions, finish and fluorescence all inside the strict band.
- Oval: check the bow-tie and the evenness of the shoulders on a video – the certificate cannot tell you.
- Lab-grown diamond (CVD).

■ Ideal – inside the Top Select band	■ Good – slightly outside, no visible effect
■ Acceptable – judge it optically	■ Out of range – not recommended

IMPORTANT NOTE

Top Select is a strict pre-selection filter. With fancy shapes, proportions alone do not guarantee optical performance (bow-tie, windowing, a dark centre); the final choice needs a video and ASET/IdealScope. L/W is largely a matter of taste.
